

Git & GitHub

Agenda:

- Git & Version Control System
- GitHub
- Terminologies
- Branching
- Resolve Conflicts
- Contribute to Open Source project.

↳ Forking

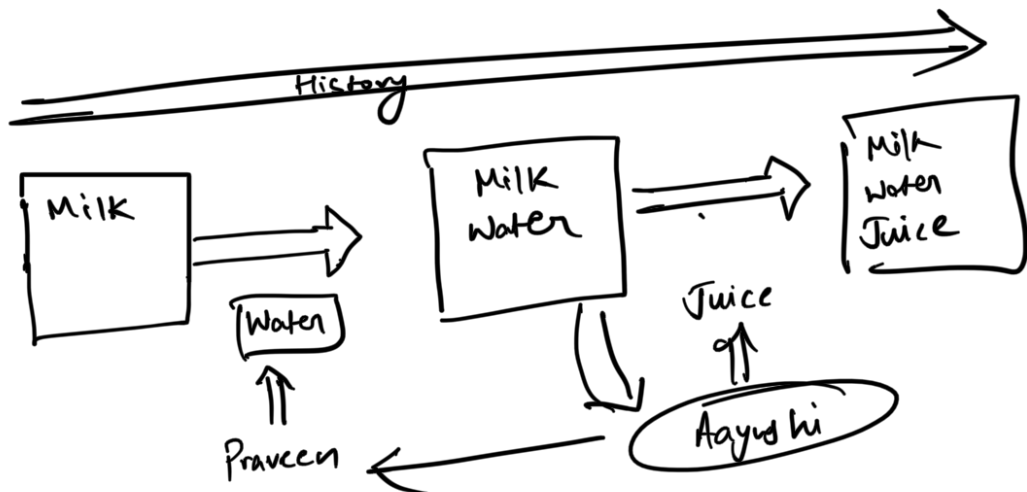

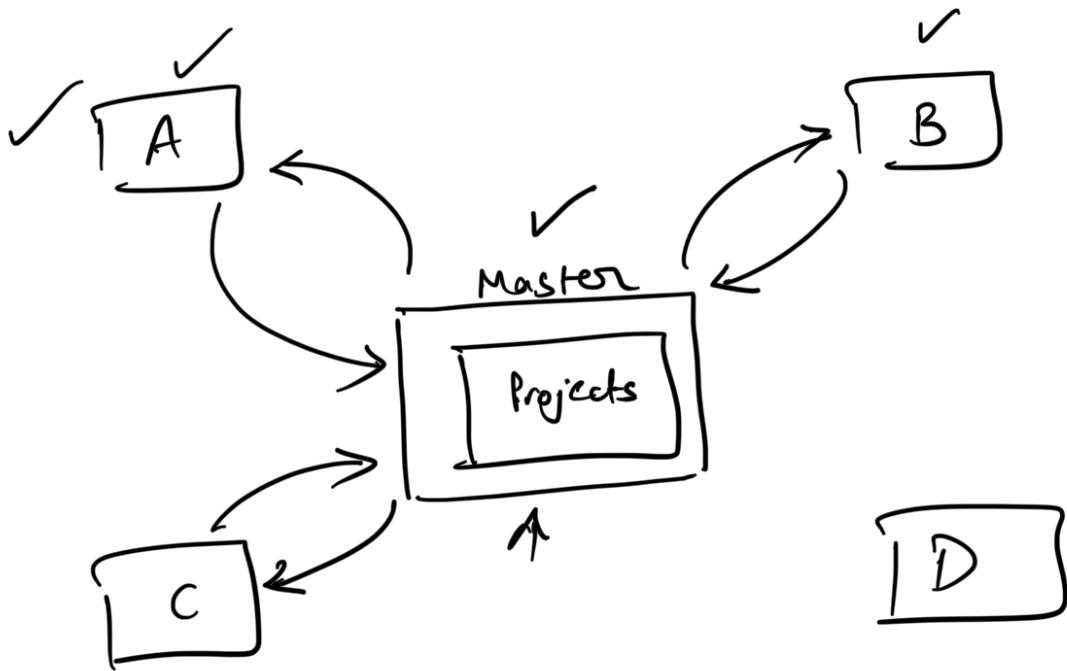

Project

Git : A version control system (VCS) that lets
collaboration

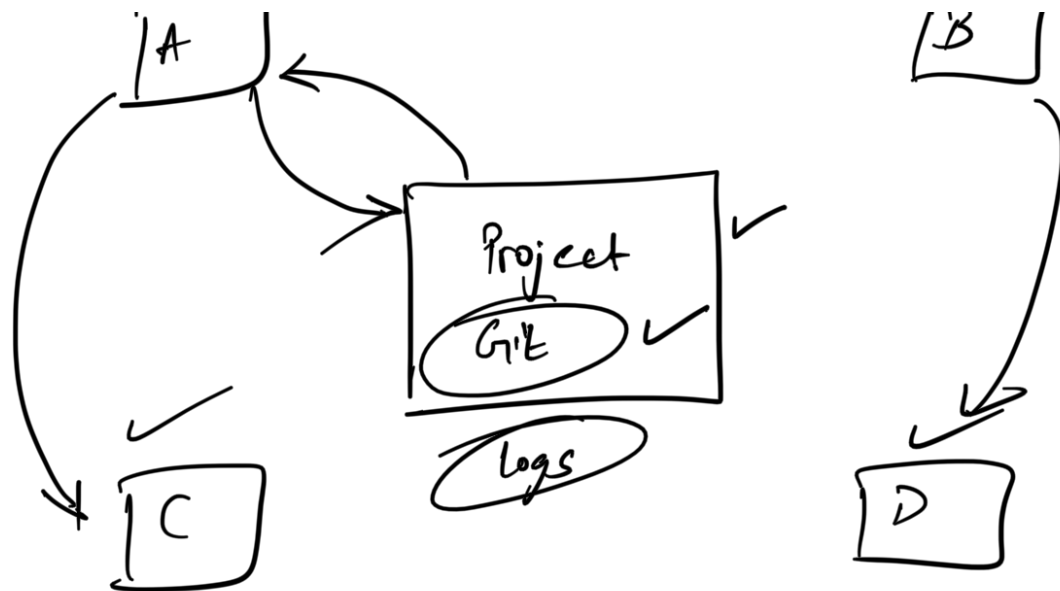

we keep track of all the modifications
that we make to our source code.

Centralized VCS / Distributed VCS

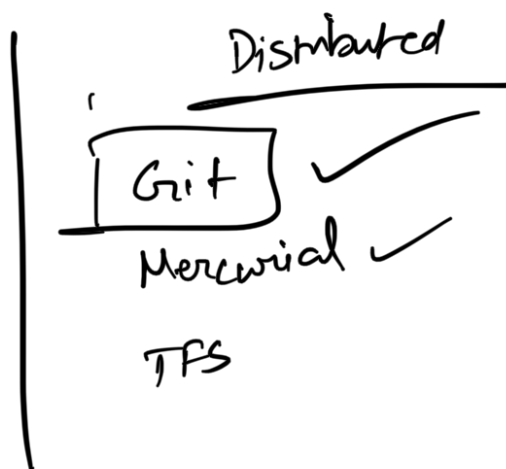

Distributed

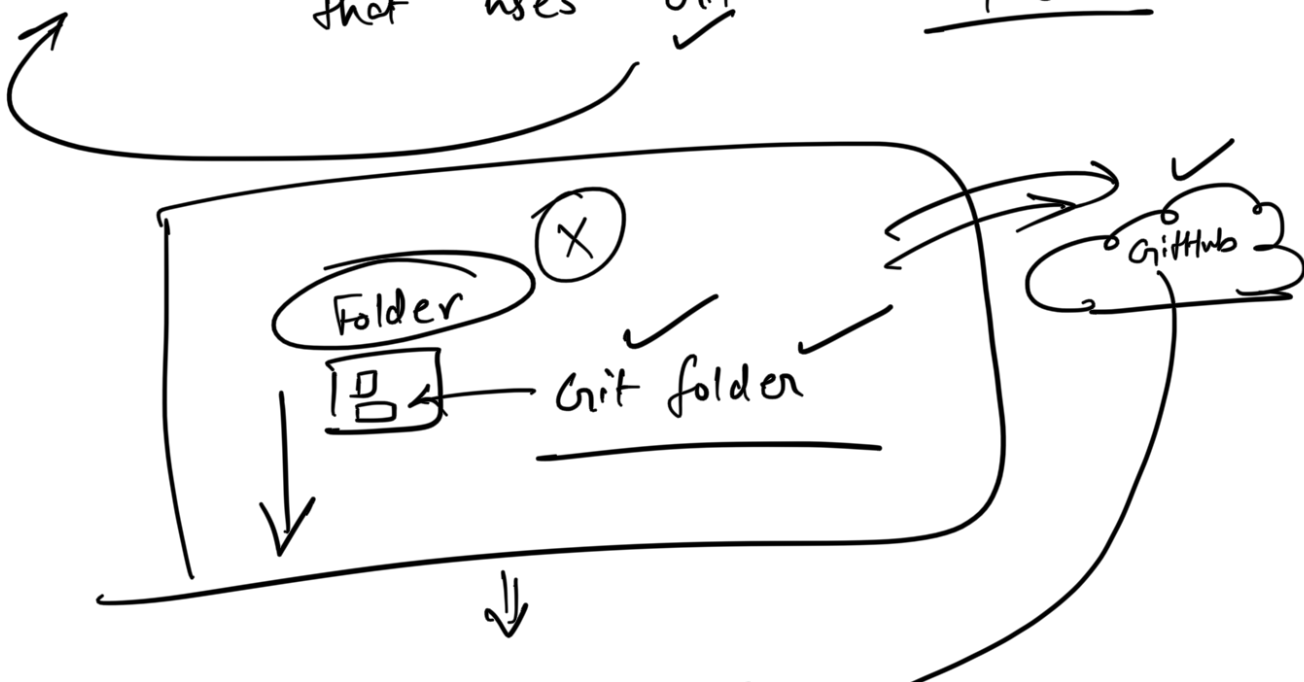

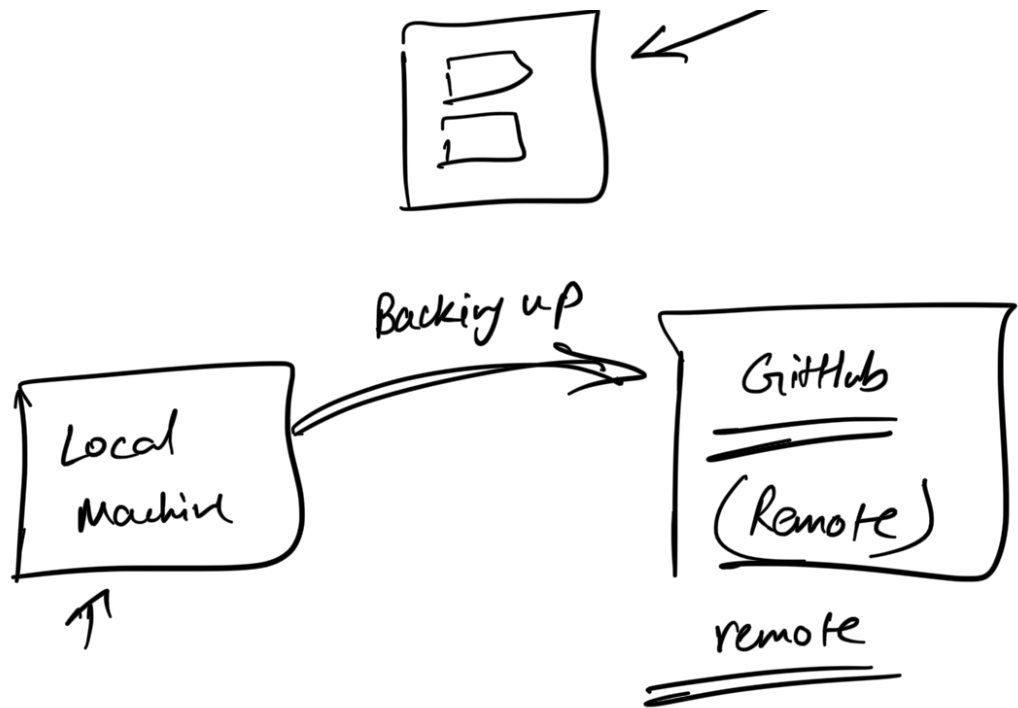

→ SVN

✓ GitHub → widely used code hosting platform that uses Git at its project
